Mr. Kenneth M. Miller, Project Manager
Federal Site Management Unit
Illinois Environmental Protection Agency
P. O. Box 19276
Springfield, Illinois 62794-9276

Dear Mr. Miller:

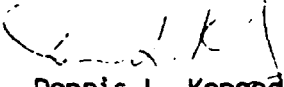

Thank you for your December 15, 1989 letter regarding the subject project.

In urban areas such as this, the Illinois Department of Transportation, Division of Water Resources (IDOT/DWR) exercises jurisdiction over construction activities in the floodways of streams that drain one square mile or more at the site. From the information you submitted, we have determined that the proposed construction site does not lie within any floodway. Therefore, an IDOT/DWR permit is not required for this project.

This is not to be construed as a release from any other federal, state or local laws or regulations. If you have not already done so, you should contact the zoning administrator for Granite City to ascertain local requirements.

If you have any questions, please contact Ken Sheblak of my staff at 217/782-3862.

Sincerely,

Dennis L. Kennedy, P.E.
